In Europe from May to August 2016!

**A circus show performed by music and circus artists from Phare Ponleu Selpak.
Welcome to their world...**

The scenery is dark, the eerie atmosphere set by ominous music makes the bodies lying on the stage seem threatening. Everything is set to give you chills. Two strange creatures, one of them handling a bloody head, make their way among the inanimate bodies. Slowly, the bodies wake up, springing off the floor in fear of the scary head... "Chills" addresses the fears and anxieties of human beings. In a poetic and symbolic way, the show conjures up nightmares that crowd everyone's mind. "Chills" presents the reaction of a students' class towards supernatural events, because in Cambodia more than anywhere else in the world, children are afraid of ghosts.

Immerge yourself in the universe of Chills without worry...

To overcome your fears, you'll need to face them first.
